- Stainless steel product guides & decking
- Base angle is adjustable to aid filling of loose piece products

MODEL 375
ELEVATING CONVEYOR

- Automatically conveys bagged product from bag sealer to tunnel
- Delivery height adjustable from 30" to 45"

System Operation and Overall Dimensions

Product is guide assisted hand loaded into a waiting, automatically opened poly bag. The operator then tears the filled bag loose from its wicket and places it into the drop sealer where it is automatically positioned, sealed, trimmed and ejected into a container or onto a conveyor.
