

## **BESTPACK Model MSLBF22**

Low Profile Top/Bottom Uniform Box Taper w/ Bottom Flap Folder / Packing Station  
Competitively priced and designed to seal uniform sized cartons down to 2.3" in height.

***Great Cost Saver** ..... ROI generally a matter of weeks. Eliminates need for extra labor by sealing top and bottom of box simultaneously. Eliminates floor space required for pre-taping of box bottoms. Speeds packing of boxes. Improves security and taping consistency.*

### **Overview**

The BestPack® MSL is an operator-fed, adjustable, carton-sealing machine designed to cater to the needs of applications with cartons of low height. The MSL22 taper can seal cartons that are 2.3" high rather than the typical 3.9" height of other MS series tapers.

The attached packing station and 3 flap folder, allows operators to erect, pack, flap fold, and seal cartons all in one machine.

- All units are available in standard finish or stainless steel.
- Also available with 2" or 3" tapehead.
