## ***RDX Program: Rebuilt Dispenser Exchange***

Tape dispensers are the heart of the carton sealer. Without the proper care and routine maintenance, dispensers can cause production line downtime, which in turn means lost revenue. Although **SOCO's** dispensers are designed to meet demanding requirements, to ensure high performance, preventative maintenance is imperative! **SOCO** presents a solution to overworked, unmaintained tape dispensers.

*Introducing:*

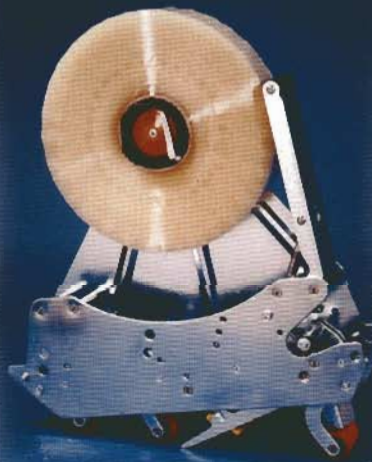

### **The RDX Program**

The Rebuilt Dispenser Exchange program is designed to keep your carton sealers in top running condition by focusing on the heart of your machine.

#### **70/50 TAPE DISPENSER FEATURES:**

- Only 60% the cost of a new unit
- Equipped with all new knives, knife guards, springs, bushings, rollers, bearings, etc.
- New technical improvements added at no additional charge
- All dispensers are tested and shipped with a new warranty
- Rebuilt units will be shipped within 24 hours

Contact **SOCO System, Inc.** to order a rebuilt top or bottom *70/50 Tape Dispenser*. To avoid a core charge, return the complete, existing dispenser within 30 days. Other dispensers are eligible for rebuilding, if the entire unit is shipped to **SOCO System**.

Call **SOCO**  
**SYSTEM** today for details!
