## The tape dispenser is the heart of a case sealer

It is important that it has optimum performance at all times.

The spare parts kit contains the most vital replacement parts to avoid long production down time all housed in a user friendly, easy to store, hard wearing container.

A detailed listing together with part numbers of parts included in the kit is printed on the reverse of this sheet.

It is easy to re-order and keep the kit updated - an order form is included with the kit.
